

Community facilities

We will:

- Provide timely and accurate advice on rural and urban community buildings.
- Offer opportunities for those who run village halls to learn from best practice and others.
- Provide the opportunity to take part in Hallmark a national accreditation scheme to recognise and celebrate well-run community facilities.
- Offer a dedicated village hall and community building communications programme to keep trustees informed of local and national issues, including a website information <https://cambcommunitybuildings.wordpress.com/>
- Offer help to communities on how best to develop new community facilities, and understand and implement *Community Rights and Asset Transfer*.
- Work with Cambridgeshire County Council on the development of hubs in the heart of local communities.
