

Town and parish council development

We will:

- Work with all tiers of local government to support the County's Town and Parish Councils.
- Provide peer learning events to share local challenges and increase learning.
- Promote and support the 'Local Council Award Scheme' to enable local councils to meet their full potential.
- Develop a Town and Parish Council website and linked social media which allows Parish councils to communicate and learn from each other.
- Offer bespoke advice through diagnostic parish visits on future community-led and Neighbourhood planning.
- Support the co-production of services at a parish level using social action and supporting the establishment of social enterprise (community) businesses. We can help communities explore partnerships that empower local people to take greater control over service decisions and resources.
