

## Volunteering and social action

We will:

- Promote alternative methods of volunteering, specifically Time-banks and asset based development work.
- Provide easy to read factsheets, how to guides and toolkits on all aspects of volunteering.
- Provide 4 bespoke training courses each year on recruiting, managing and retaining volunteers.
- Work with local business to deliver a learning and skills exchange programme, taking the best skill and expertise from business to use in the support of community based groups.
- Investigate social action initiatives across the county based upon the concept of place.
- Illustrate our success through the compilation of Social Impact Frameworks.
