Innovate and Cultivate Fund
27 September

Cambridgeshire Community Foundation - CCF

- Grant making charity based in Cambridge
- Grants we make are possible because a growing number of donors choose to direct/channel their support through CCF
- Donors set up restricted funds at CCF – each fund is targeting its own beneficiaries, geographical area, outcomes etc

The Innovate and Cultivate Fund
is one of the funds we work on

CCF's role with the Innovate and Cultivate Fund

- To offer guidance/feedback/advice to groups who might be thinking to apply
- Collate applications and do initial review – completeness, supporting docs
- Share with CCC who gather further information
- Attend panel meeting where requests are discussed and next stage determined
- Feedback to groups next stage

PROCESS OVERVIEW

Applicant

Apply using online application form

Submit by advertised deadline

6 key questions (to answer in 300 words or less)

1 Please identify **which of the Councils target outcomes** your project will help deliver for Cambridgeshire residents, and how your project will do this.

2 Who are the **direct beneficiaries** of your project and **which specific high cost** Council services do they currently access, or are very likely to access in the future. **How many direct beneficiaries** will your project support?

3 How will your proposed project **reduce the need** for your beneficiaries to use Council services?

4 With reference to any of your work to date, why can you be confident that your project and **targets are credible and deliverable**?

5 Please state whether you (or another organisation) are **already delivering** all or part of the project you propose; If you are already delivering, explain how your proposed project differs from current provision(eg different beneficiaries, different approach or in a different location?)

6 How does your project **increase the capacity** within communities and make people and communities more resilient?

7 key outcomes for Cambridgeshire residents:

1. Older people live well independently.
2. People with disabilities live well independently.
3. Adults and children at risk of harm are kept safe.
4. Places that work with children help them to reach their potential.
5. The Cambridgeshire economy prospers to the benefit of all residents.
6. People live in a safe environment.
7. People lead a healthy lifestyle and stay healthy for longer.
